Yes...on the outcome of the Linc project in Wyoming and upcoming action on Dewey Burdock in SD.

We still have not heard anything from WDEQ on when the next ISR-related AE will arrive or if/when they will offer their thinking of current use/source analysis methods/assumptions per their commitment at GWPC in Seattle.

Douglas

**Subject:** Draft Agenda for tomorrow's AE Workgroup Meeting

Hi David and Douglas,

Here are my thoughts for an agenda for tomorrow's meeting. David, would you be willing to give an update on California- status of discussions and possible workshops? Douglas, would you be willing to give an update on the Class III permit aquifer exemption?

- Update on California Aquifer Exemptions and possible workshops (R9) (5 to 10 minutes)
- Summary of the Hathaway Petition and next steps (HQ) (5 minutes)
- AE tracking system (looking at Web-based GIS platform to display AE data) (HQ) (5 minutes)

- Capture Zone Analysis Methods/Models (decision tree) (HQ) (5 minutes)
- Future Use – drafting a decision tree document (HQ) (5 minutes)
- Update on Region 8 Class III permit and AE request (R8) (5 to 10 minutes)
- Regional Round Robin on upcoming AE requests (10 minutes)

Once I hear back from you both, I will send this agenda to the workgroup.

Thanks,

Lisa
